Very Early, Great Yields, Immensely Profitable.

ENSIGN BAGLEY POTATOES. This illustration is a photographic reproduction of a field of Ensign Bagley potatoes grown in Aroostook County, Maine. Mr. J. C. F. Bagley, the originator of this famous early pure white sort, stands in the foreground of the picture. So popular has this grand sort become that we have doubled each year our acreage since we first introduced this variety four years ago.

Other dealers have sold other varieties under this name, but we still control the entire stock of those grown from the pure original stock seed. Ensign Bagley is a pure white oblong shaped early variety, sure to yield a big crop if given a fair chance. We have a large, and we believe, the finest stock we have ever seen of them. Order early and be sure of getting your order filled. Per lb., postpaid, 15c.; peck, 60c.; bu., \$2.00; barrel, sack of 165 lbs., \$4.00; per double head barrel, \$4.25. We have fine stock also of Irish Cobbler, the great early round white potato, same prices as Ensign Bagley.

SEED CATALOGUE

1904

S. D. WOODRUFF & SONS,

ORANGE, CONN.

And 82 and 84 Dey Street, New York.

OUR CUSTOMERS

Will always be welcome to visit us and inspect our methods, particularly in the summer season, while our seed crops are growing. We have a succession of seed crops maturing from about July 1st, through August and September—first beginning with turnip seed, then following on with kale, ruta бага, cabbage, parsnip, onion, beet, carrot, tomato, sweet corn and other varieties of seeds in smaller quantities.

We are visited each year by a large number of our customers, and we are always glad to have prospective customers call on us. Whether they purchase seeds of us or not, we will show them our crops most cheerfully.

We test our seed as to vitality, and our customers can always feel assured that to the best of our knowledge the seeds we send out are pure, reliable and true to name.

HOW TO REACH US.

We are but six miles from New Haven. Take Berkshire Division of the N. Y., N. H. & H. R. R., from New Haven to Orange, a ride of but 13 minutes. We are but 3 minutes walk from Orange Station. Fifteen trains per day each way stop at Orange.

Long Distance Telephone—309-5. New Haven Division.

HOW TO SEND MONEY.

We will receive postage stamps, if received in good condition, same as cash. Remit by P. O. or Express Money Order or Registered Letter. Personal check or draft received from parties of established credit. Make Postal Money Orders payable at Derby, or Orange, Conn. Orange has recently been made a Money Order office.

POSTAGE.

Seeds will be mailed postpaid in quantities of 1-4 lb. and less. Quantities of 1-2 lb. and over will require postage at the rate of 8 cents per lb. in addition to catalogue prices. Peas and beans require 15 cents per quart, and corn 10 cents per quart in addition to catalogue prices.

WE PAY THE FREIGHT.

On orders to the amount of \$7.00 or over, at catalogue prices, where cash accompanies orders, we will deliver goods to your nearest station charges prepaid. Excepting, we cannot pay freight on potatoes or onion sets.

DISCOUNTS.

Market gardeners who purchase ten, twenty or more dollars' worth of seeds, naturally expect a lower price than those who purchase but a small amount, and we will make the following discounts from catalogue prices where cash accompanies order; On seeds in packets and by the ounce, we will mail postpaid for one dollar, seeds to the amount of one dollar and twenty-five cents. On orders amounting to ten dollars and upwards, deduct 5 per cent. where cash is sent with order, except on potatoes, onion sets and grass seeds.

WE GUARANTEE THE SEEDS WE SELL.

We carefully test the seeds we sell, and to show the confidence we have in them we make the following guarantee;

We will refund the price paid for any seeds offered in this catalogue, and paid for at catalogue prices, if after proper culture the crop fails, provided such failure is directly due to the poor quality of the seed.

This of course does not compensate for any great loss, but it is impossible to assume any responsibility further than this. We are at all times ready to listen to any just complaint, and it is our constant aim to so treat our customers that they will stand by us.

New and Great Strawberry "Abundance."

The three stems engraved from photograph contain 88 fully developed berries.

We feel proud that this strawberry was originated right here in our own town (West Haven being a part of the town of Orange). It is our object to send out such seeds, plants, etc., that will make "Orange Famous."

Prices; Per dozen, postpaid, \$1.00; per 100, by express, \$6.00.

ORIGINATORS' DESCRIPTION.

The Strawberry "Abundance" was found growing wild in the spring of 1886 by J. H. Bradley on the grounds of D. V. Bradley and crossed by the "Sharpless," producing a very superior berry. The plant is of a pistillate variety, a very vigorous grower, the roots being very long with numerous laterals. The foliage is abundant, free from rust, and covers the berries well. As a plant-maker it is in the same class as the "Crescent," it will average thirty on every spring-set plant. The fruit stems are long and stocky, there being two or three on each plant in matted rows three feet wide, and it perfects all its fruit when crossed by the "Sharpless" or other large and late staminate. The berries in size are between the "Sharpless" and the "Crescent," their shape is conical, except the first berries, which are irregular. The color is bright red. In firmness they excel any variety we have tried. The flavor is fine, being similar to wild varieties. The fruit ripens five days later than "Bubach," and continues to bear very late in the season. When all the best qualities that go to make a good berry are considered, as a plant-maker, good foliage, great firmness, fine flavor, and its great yielding qualities, it excels them all. The yield the past season—and many were cut off by frost—has been at the rate of 14,000 quarts per acre. "Glen Mary," on the same ground and treatment, yielded at the rate of 6,000 quarts per acre; "Bubach," 11,800 quarts per acre, the great advantage in the "Abundance" being its firmness and great plant-making qualities.

West Haven, Conn., June 30, 1902.

D. V. & J. H. BRADLEY.

D. V. & J. H. BRADLEY, West Haven, Conn.—Dear Sirs: Some few days since I received a communication from you asking me for my opinion of your "Abundance" variety of Strawberries that I handled for perhaps eight or ten consecutive years previous to my leaving the grocery and fruit business in 1900. I am very glad of the opportunity to state that in your "Abundance" you have the most satisfactory berry that I ever found in my experience of nearly twenty years in the New York and New Haven markets. In size the fruit is between the "Crescent" and "Sharpless" varieties, of a very rich color, with a beautiful waxy appearance, a flavor second to none; and, as far as keeping qualities are concerned, it excels any variety that I ever found. In fact, as an all-around berry, it is, in my opinion, much ahead of the "Bubach" or any other variety.

Very respectfully, E. L. NETTLETON.

We inspected the growing crop on June 17th, 1902, while in full fruit, and, as compared with "Glen Mary," "Bubach" and other sorts, the yield, we should judge, was nearly double, and the size and color, magnificent.

BEET SEED.

*Crimson Globe Beet.*

We make a specialty of growing beet seed in large quantities.

We take great pride in our own selected strains of Beet seed and while our prices are necessarily somewhat higher than prices of some other dealers, our customers can rely on getting stocks that are A No. 1 in every respect.

Your seeds have always been very good. Every seed seems to grow and produce good crops, particularly parsnip, onion, turnip and beet.

Echo Lake Farm, Interlaken, Mass.

The seeds that I have had from your firm have been perfectly satisfactory, true to name and sure to grow.

H. A. Felton, Orange, Mass.

The seeds we bought of you were very satisfactory.

Samuel Nichols, Cohasset, Mass.

The seed I had from you last year was the best I ever used. Everything was as good as could be asked for. I had the best garden in the village.

L. A. Smith, Belchertown, Mass.

✓ **Crimson Globe.** We have again received very satisfactory reports from gardeners who used this beet the past season, and we heartily recommend it as one of the most desirable early bunching sorts.

✓ **Crosby's Egyptian Beet.** The standard early bunch beet for the up-to-date market gardener. It is a thicker beet than the extra early Flat Egyptian and fully as early, and bottoms very uniformly.

THE CABBAGE.

We advise our customers to pay a fair price for **SELECTED AMERICAN GROWN CABBAGE SEEDS**. The importance of this is best realized by those who have bought cheap cabbage seed. We claim that our strains are unexcelled in America, and the many testimonials that we have received from critical market gardeners, who annually purchase their cabbage seeds from us, clearly prove this statement.

Add 8 cents per lb. if sent by mail.

Cabbage—continued.

Probably no crop paid market gardeners, during 1903, better returns than the cabbage crop. Many of our customers reported a profit of \$300 to \$400 per acre. Cabbages sold on the New York market the entire season at from \$5.00 to as high as \$12.00 per hundred throughout the entire season.

*All Head Early.*

WOODRUFF'S LONG ISLAND BEAUTY CELERY.

It is with great pleasure that we introduce to our customers this new green celery. For the past five years there has been a growing demand for a type of green celery which was at once a quick grower of a dwarf habit similar in shape and appearance to Golden Self Blanching, which would mature "a heart" and be a long keeper. We have all these qualities in Woodruff's Beauty Celery. We may add that we have as near to an ideal green celery as we ever expect to get.

Danver's Improved (Select strain.)

Carrots—Continued.

Flushing, L. I., Dec. 16, 1903.

S. D. Woodruff & Sons,

Gentlemen:—I wish you to book me for thirty pounds of your Half Long Danvers Carrot, same as I had last year. I bought of three other leading seedsmen last year, but your

seed grew the best crop of carrots. All the different lots of seed were sowed side by side, and given equal chance, but in every case, your seed grew the crop.

Very truly yours,
H. D. Lott.

Chantenay, One of best for Bunching.

✓ **Rubicon Half Long Carrot.** This is becoming a popular half long sort, it is very fixed in shape and a great cropper, excellent also for bunching. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., 90c.

W. S. Harrub, Scituate, Mass.

CELERY.*White Plume.*

Our strains of White Plume and Golden Self-Blanching Celery are the finest we have seen, and we have tried a large number of strains. These items make many friends for us each season. Seed of these varieties is proven stock.

*Golden Self-Blanching.*

In Comparing prices note that we deliver seeds to your station without extra charge, provided your order amounts to \$7.00 or over. See page 1.

✓ PARIS GOLDEN, OR GOLDEN SELF-BLANCHING CELERY.

This most important of all varieties of celery has been the cause of much annoyance owing to its sporty habit and the danger of its growing *pithy*. We continue to sell only Proven seed of this sort.

Our trials and the trials of our customers the past year have proven most gratifying, and we can recommend it pure and true to name at least 90 per cent cent. solid. The vitality of this seed is good. Our supply of proven seed this season is ample for our largely growing trade. Pkt., 10c.; oz., 50c.; $\frac{1}{4}$ lb., \$1.25; lb., \$4.50.

We could add dozens of testimonials as to the excellent results obtained from our strain of Golden Self-Blanching Celery it was in short, the nearest to a perfect stock of this most popular and excellent sort that we have ever seen.

SWEET CORN.

When it comes to Sweet Corn, Woodruff's is the standard. Situated in the very heart of the greatest Seed Sweet Corn section in the country, we invite you to consider the following reasons why we desire your trade. We have the largest assortment; we are able to select from the greatest number of crops; we have grown up in the seed corn business; we see every new variety which comes out; we are sure to please you. When you can't get it anywhere else write to us. We sell it both on *ear* and shelled.

Long Island Beauty.

Really choice quality Sweet Corn seed is unusually scarce this season. Our corn is up to usual standard of excellence, but we advise our customers to order early in order to secure the best. Owing to great shortage we cannot accept orders for Sweet Corn alone but only in connection with orders for other seeds.

First quality Sweet Corn cannot be bought at a low price this season. Order from Headquarters and get satisfactory Seed.

Corn—continued.

Long Island Beauty. We put out this new main crop sort last season with more complimentary results than any one novelty last season. ✓ **White Southern Ensilage or Sheep Tooth**. Qt., 10c.; peck, 35c.; bu., \$1.15; 5 bu. lots at \$1.00 per bushel.

Remember we are headquarters for the East on Sweet and field Corn, we can supply it in any quantities wanted, from one ear to car load.

SWEET FODDER CORN.

We can offer a choice lot of Sweet Corn, all large growing varieties, and those who buy a quantity for ensilage generally prefer the Sweet Corn to a field variety. Price per bu., \$1.50; 5 bu. or more at \$1.40 per bu.

You will find this a nice sample and the price is very low.

Bear in mind that we are extensive dealers in Corn of all kinds and will be glad to quote special prices on large lots.

WHITE RICE POP CORN.

The best sort for popping: Pt., 10c.; qt., 15c.; pk., 70c.; per lb. on ear, 5c.

CUCUMBERS.

A peculiar condition has again prevailed in the extreme short crop of cucumber seed. The crop of 1902 was a very poor crop, while the crop of 1903 has been even worse, and really choice strains of cucumber seed are in very short supply. We again urge our customers to plant sparingly. We will sell at following prices at long as stock lasts.

Peerless or Long White Spine.

We have an unsurpassed strain of Peerless White Spine. Some of our customers netted \$400 per acre from them last season. Pkt., 10c.; oz., 20c.;

HOME GROWN ONION SEED.

We are headquarters on Connecticut Grown Onion Seed Grown from Selected Bulbs and Grow Annually on our Farms many Thousand Pounds.

No seed which the farmer or gardener buys is of more importance than Onion Seed. In none is he more at the mercy of his seedman. This above all other seeds must be sold upon honor. We feel justified in claiming for our seed all that can be said about any seed—viz: that it is *as good as can possibly be produced*. Now the reasons for this claim are these. We grow our onion seed from selected bulbs on our own seed farms. We carefully harvest and cure the seed. We offer it to you direct. The price is as low as we can produce the very best seed. *Once a trial order always a customer*, has always been our motto regarding onion seed.

We have made a practice in the past of printing some testimonials from some customers who have had specially large crops of onions from our seed. We have received more words of praise the past season from onion seed customers than ever before.

We could print pages of testimonials from satisfied customers about the onion seed we have supplied them but we know well that

Results will speak in convincing terms,

We ask from all a *trial order*, knowing full well that a trial will make a permanent customer.

TO OUR OLD CUSTOMERS.

We need say only that our 1903 Crop Onion Seed is of strong vitality no crops falling under 80%, and most crops testing by careful test from 88% to 95%. Have no doubts about vitality this year. Our seed is plump, heavy and up to the usual high standard of quality.

Cheshire, Mass., Feb. 7, 1903.

DEAR SIR:—Last year I sowed your Yellow Globe Danvers Onion seed by the side of seed I bought of a reliable dealer near home. Plants from your seed took the lead, held it all summer, and at harvest time produced more than double the amount of fine onions which the other seed produced.

M. E. PHELPS.

SOUTHPORT GLOBE ONIONS.

Onion growers will do well to buy their seed direct from the growers of the seed. Our seed is all thoroughly tested and will please you as it does hundreds of other critical onion growers in the country.

ONION SEED FOR GROWING ONION SETS.

The following sorts of onions are used for producing onion sets, and we quote special low prices for these in lots of not less than 25 to 50 lbs. of a variety, net cash.

Extra Early Red Flat and Red Wethersfield @ 80c. lb.

Yellow Flat Danvers, Yellow Strasburg and Australian Brown @ 65c. lb.

White Silverskin, White Portugal and White Queen @ \$1.35 lb.

WE GROW ONION SEED BY THE TON.

Some of our competitors have circulated the story that we do not grow but a small part of the onion seed we sell. We deny these charges and make the positive statement that *we grow on our own seed farms here at Orange, Conn.*, thousands of pounds, *yes*, several tons of onion seed annually, and we believe we produce more onion seed than any other grower east of the Mississippi River.

We do not claim to grow all of the onion seed we sell, for some varieties are grown in other sections of the world better adapted for their particular types; but growing as we do a very large part of our seed, we have a right to claim that it is superior to much of the "cheap" seed on the market.

Your onion seed was all right, and best I have ever used.

F. B. Estabrook,
East Northfield, Mass.

Connecticut is the home of the famous Southport Globe Onions. Our strains of Southport, Red, White and Yellow Globe varieties are unsurpassed. Send to headquarters for pedigree stock.

PRICES FOR YELLOW GLOBE DANVERS 1903.

Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.40; 20 lbs. and over at \$1.25 per lb.; 50 lbs. and over at \$1.20 per lb.

Do not be tempted to buy onion seed of uncertain quality because it is a few cents less per lb. in price. This seed we

grow ourselves and we think we know whereof we speak.

SOUTHPORT WHITE GLOBE.

The Early Cracker Onion.

True seed of this onion can only be produced from carefully selected bulbs. Seed from such bulbs is not plentiful this year, but our customers will, if they order early, while our stock lasts, obtain seed from pure white globe-shaped onions. We challenge comparison with any one on our seed of this variety. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.50; 10 lbs. or over at \$2.25 per lb.

One of the expert onion growers in the Southport, Conn., section wrote under date of Sept. 25, the following:

"The Southport White Globe onion seed I purchased of you last spring proved satisfactory in every respect. The onions grown from it are as good shape as those grown from my own seed and the vitality of your seed was much better than my own seed."

We could print numerous other testimonials regarding our Southport Red Globe and Southport Yellow Globe varieties. Some of the finest crops in the United States grow from our seed.

Our prices are low considering quality of our seed. Give us a trial; we can serve you whether you use 1 oz. or 500 pounds. We have many planters among our customers who purchase annually from 50 to 200 pounds each.

Our trade on onion seed among the planters of America, has increased over 50 per cent. each year for the past four years. The only reason we know for the increase is the fact that our seed has given universal satisfaction and good seeds have made for us many good friends.

ONION SETS CHOICE PHILADELPHIA GROWN SETS.

We are Headquarters for the Best.

We take pride in the fact that each year for the past five years we have doubled our sales of onion sets. This is proof not only that our sets are satisfactory, but that our customers find them a profitable crop.

They are a sure crop and where a ready market is available they will pay as well as any crop you can raise. Set them out in rows 12 inches apart, and 3 inches apart in the row.

We have a fine stock of choice *Eastern grown* sets, and are prepared to supply in any quantity wanted. Many of our market customers buy from 25 to 100 bushels each.

Two of the Tools Every Onion Grower Should Own.

Universal Onion Drill.

Meeker Smoothing Harrow.

No one who raises one acre or more of onions can afford to be without this tool. It does away entirely with hand-raking the soil. Upon our own farms we would not be without one for three times its cost. Price \$20.50, or 5 per cent. discount for spot cash.

We grew on our own farms last season a crop of onions from onion sets that yielded 640 bushels per acre.

This is the drill used almost exclusively by onion growers in the Southport, Conn., section, and it is needless to say that it is considered the very best drill in use. It sows with great accuracy two rows at a time, 12 inches apart. Net price, \$7.00.

Our prices on our own grown onion seed are net, not subject to discounts. Selling direct to the planter, we are enabled to sell our very fine strains at reasonable prices.

PARSLEY.

One of the finest plants for garnishing: used for flavoring soups, stews and salads. Sow as early as possible in Spring, in shallow drills fifteen inches apart, raking the soil fine and level on top. Cover the seed one-third of an inch. The plants appear in from two to six weeks. Succeeds in common garden soil.

✓ **Champion Moss Curled.** The standard market sort. Our stock of this is extra double curled and one of the finest stocks to be had. Used very extensively on Long Island. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 65c.; 5 lbs. at 60c. per lb.

✓ **Fern Leaf.** Very fine crimped leaves. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

✓ **Plain Leaf.** A very hardy variety. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

✓ *Peas—Gradus or Prosperity.*

We place this variety at the head of the list, as we believe it deserves it for it is one of the greatest vegetable novelties introduced during recent years. The new pea Thomas Laxton which seems destined to rival Gradus is the only sort anywhere near approaching it in size of pod and earliness.

Imagine a wrinkled pea with a pod very nearly as large as Stratagem or Telephone, and maturing within three or four days as early as Alaska, or any of the other round extra early sorts, and you will get an idea of exactly what this pea is. Price per pkt., 10c.; qt., 40c.; pk., \$2.75; bu., \$10.00; ten bushels, \$90.00; cash, no discount.

✓ **Thomas Laxton Pea.** The growth of this sort is identical with Gradus, pods a trifle darker green, square at the end. Matures two or three days later than Gradus. Price per pkt., 10c.; qt., 40c.; pk., \$2.75; bu., \$10.00; 10 bushels, \$90.00; cash, no discount.

NEW PEA, AMEER.

A new pea from England, described by the introducers as follows: "A large podded extra early sort, resembling Alaska. In general appearance the peas and pod, however, are nearly twice as large as Alaska, matures three days later than Alaska."

From this description it will be readily seen that this pea must take a leading place for early market. The pods being twice as large as Alaska: and the peas being ready for market three days later than Alaska, will readily commend it to truckers. Supply of seed, all of which we have imported from England, is very limited, and we cannot sell over 2 bu. to any one purchaser. Price per pkt., 10c.; qt., 40c.; pk., \$2.00; bu., \$8.00.

PEAS.

The seed pea crop was one of the few seed crops the past season to produce a fine yield, and our seed was never better than this season. No "buggy" peas from "Woodruff" this season, as we grow our peas in a special section in the North where the pea weevil or bug is unknown as yet.

PARSNIPS.

*Improved Hollow Crowned.*

The Parsnip is one of our specialties. We raise annually a great many hundred pounds and our strain is the smoothest and finest in existence.

✓ **Long Smooth, or Hollow Crowned.**

This standard variety grows large and free from side roots, excellent flavor and good keeper. We make a specialty of growing parsnip seed. We raise annually large quantities of this variety, and think there is none better than our strain. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 50c.; 5 lb. lots at 40c. per lb.

I wish to state that we have had very good luck with the seeds that you sent us. They were good seeds, indeed.

Geo. Linzmayer, New Mommouth, N. J.

I have always been pleased with the seeds I have received from you, and best of all they have proved true to name.

Albert Brown, Canton, Me.

Remember we handle grass seed by the car load, and it will pay you to drop us a line for prices, or send your order. We will always make lowest possible prices on High Grade seed.

POTATOES.

We point with pride to our record in supplying Potato Planters with just what they need in Seed Potatoes. No better evidence of the truth of this statement can be presented than the fact that last season we supplied many thousand barrels of choice seed to planters in all parts of the Eastern states, and that at this date, Dec. 16, 1903, we have advance orders already for next season of 5256 barrels from our old customers and their friends. If you have been troubled in the past to secure seed potatoes true to name and perfectly satisfactory, send your orders to us this season and we will do our best to please you.

HOW WE HANDLE OUR SEED POTATOES.

First. We use great care in selecting our seed stock.

Second. We place this seed in the hands of careful experienced growers who grow the entire product for us in Aroostook County, Maine, the home of the seed potato.

Third. We personally inspect the growing crops in the field and dig out any impure or off-type specimens which may have appeared.

Fourth. We receive the seed potatoes from the growers and store them in bins especially constructed to carry them through the winter without danger of frost or heating;

Fifth. We ship them in heater cars from the cold north to our warehouses at New York and Orange, or if your order amounts to a carload we will ship direct to you and make you a special price besides for so large an order.

VARIETIES OF SEED POTATOES,

Ensign Bagley. We head the list with this most popular sort. Introduced by us in 1899, this potato is now more sought after than any other early sort wherever it has been tried. So great has been the demand for this sort that we last year planted one hundred acres and the entire product of this crop will be sold by us to market gardeners for seed in this country, in Canada and in England, during the coming planting season.

Many dealers for the past few years have sold substitutes for this potato as true Ensign Bagley. Buy your seed direct from the originator and insure pure seed. Price for 1904. Per lb., postpaid, 15c.; per pk., 60c.; bu., \$2.00; barrel sack of 165 lbs., net, \$4.00 or \$4.25 per double head barrel.

The Bagley potatoes have been fine. None are earlier around here.

I am very well satisfied with your seeds. Shall buy more extensively next year. I think very highly of your Bagley and Foote potatoes.

Ensign Bagley potatoes were even more satisfactory than last year, running larger and more of them. It is an excellent early white sort. REV. J. REYNARD LAWRENCE, Lanesboro, Mass.

What Some Few of Our Customers Say of Ensign Bagley Potato.

The Ensign Bagley Potatoes I bought of you last spring gave good satisfaction, all you claim for them; and more; both in yield and quality, have always found your seeds reliable.

S. G. YOUNG, Voluntown, Conn.

The Bagley potatoes purchased of you in 1901 and 1902, yielded very good and I am well satisfied with my crop both years.

L. H. LINDEMAN, Woodstock, Ct.

I will say your Ensign Bagley potato was fine; the best I have ever had, and Admiral Foote are fine also.

W. M. EMERSON, Concord, N. H.

A. H. JOURDAN, Grafton, Mass.

J. F. CROWELL.

ADMIRAL FOOTE POTATO.

Last year our crop of this standard second early sort was so short, owing to rot, that we were obliged to return money to many of our customers who ordered this potato. We have a good stock of Admiral Foote for spring of 1904, and advise our customers to include this sort in their order for seed potatoes as they are sure to produce a profitable crop of excellent quality. Price per lb., postpaid, 15c.; peck, 60c.; bu., \$2.00; bbl., \$4.25; in 5 bbl. lots at \$4.00 per bbl.

IRISH COBBLER POTATO.

The Irish Cobbler Potato has been on the market for several seasons, but has not attracted particular attention until the past season or two. It has now become so immensely popular that the seed supply is quite inadequate for the demand. The potato is a *very early* round white sort. Ready to market last season in New York State and Long Island on June 29th. when prices were high, this potato could not help but attract the attention of the wide-awake market gardeners of this section. Orders booked in rotation as long as stock holds out.

SUNFLOWER.

A little time and seed; the seed sown in most any out-of-the-way place will insure quite a profit to the farmer in poultry food. Yankee ingenuity has led some to utilize the tall sunflower stalks for bean poles. First sowing the sunflower seeds and then after the stalk is well started, plant the beans. Excellent also for parrot food.

SWEET, POT AND MEDICINAL HERBS.

Every garden should have its complement of Sweet Herbs. We can all appreciate their utility, both for summer flavoring and their opportune use medicinally. Their culture is so easy that none ought to be without them. Sow the seed in pan or seed bed in early spring, transplant

as soon as weather will permit. Cut them when not quite in full bloom and hang in shady places to dry. Pack away in box entirely excluded from the air.

*Grass Seeds—Continued***JAPANESE BARNYARD MILLET (*Panicum Crus Galli.*)**

This wonderful and valuable new forage plant was introduced in this country by Prof. Brooks of the Massachusetts Agricultural Experiment Station. It has proven an enormous yielder in all sections of the United States where tried—hay and fodder of the most excellent quality growing on any soil, yielding 12 to 20 tons per acre, and growing 5 to 8 feet in height. Cattle and horses eat it greedily. Sow in May and June broadcast, 10 to 12 pounds per acre, or in drills, 8 lbs. per acre. Prices, lb., 15c.; (by mail, postpaid, lb., 25c.); 10 lbs., \$1.00; bu. of 32 lbs., \$2.00, by freight or express.

LAWN GRASS MIXTURE.

Our Lawn Mixture is composed of the finest re-cleaned grass seeds (not of the cheap, light chaff weighing but 15 lbs. per measured bushel, as put up by most seedmen). Our Lawn Grass Seed weighs about 20 lbs. per measured bushel.

THE QUANTITY REQUIRED.

The quantity required for making new lawns is 4 bushels per acre, or for renovating old lawns 1 to 2 bushels. For a plot 15 x 20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns.

Prices, 20c. per qt., 90c. per pk., \$3.75 bu. (If by mail, add at the rate 5c. per quart for postage.)

Grafting Wax. Price per $\frac{1}{4}$ lb., 10c.; $\frac{1}{2}$ lb., 15c.; lb., 25c.

BARLEY. BARLEY, BARLEY.

We are headquarters on Barley. For sowing for a forage crop is being used very extensively. The early frosts do not kill it and it can be pastured clear into the winter. If cut in September it makes good hay. Price per bu., \$1.10; 5 bu. lots at \$1.00 per bu.

Price on all of above Grass Seeds, Millets, etc., are subject to market fluctuations, and net cash, no discounts,

FLOWER SEEDS.**Special Collection Offer.**

For 25c. we will mail to any address, postpaid, flower seeds to the amount of 40c. For 50c. we will mail to any address, flower seeds to the amount of 90c. For \$1.00 we will mail to any address, flower seeds to the value of \$1.75. All of the above offers are net, not subject to any other discounts offered. A very slight money expenditure in flower seeds and a small patch of ground, worked with perseverance, will give to the agriculturist more satisfaction and delight to the square inch than any occupation of which we know.

Woodruff's Home Mixed Fertilizers.

Each year finds more and more progressive farmers buying Home Mixed Fertilizers because each year more farmers learn that in no other way can they obtain the greatest amount of plant food for the least money.

We have mixed our own fertilizer for use on our extensive seed farms for the past seven seasons and cannot too strongly recommend this method of buying fertilizers.

The successful results we have obtained from using Woodruff's Home Mixture on our own farms has induced us upon urgent request of many customers to offer these goods at a reasonable price, either mixed ready for use, or unmixed.

The fertilizer we offer is in every respect the same as we use on our own extensive seed farms, is made from strictly high-grade chemicals and mixed by ourselves. We buy these chemicals in 50 to 100 ton lots for spot cash, and by so doing we are enabled to sell a strictly high-grade fertilizer at a much lower price than the same quality can be purchased from manufacturers of ready mixed fertilizers.

Your attention is directed to the report of the Conn. Agricultural Experiment Station for 1903, wherein is listed the formulæ of not only home mixed fertilizers, but all standard brands.

We offer the following formula: Ammonia, 4 per cent.; Available Phosphoric Acid, 8 per cent.; Potash, 8 per cent. Spot cash price, \$27.00 per ton.

This fertilizer is put up in sound second-hand bags and put F. O. B. cars, Orange, Conn. We can also quote chemicals in any quantity to any one desiring to mix their own goods.

If you compare this formula at this price with any standard goods, you will be able to judge of the great saving in price by using our Home Mixture. A trial order will convince you that you cannot afford to be without this money saver.
